

Liz,

We thought we'd drop you a line and let you know how Harley & Shelby are doing. They couldn't be sweeter, they have great dispositions, they love everyone they meet including other dogs. Of course we think they are the smartest puppies ever! Actually the potty training is going great and they have quickly learned many commands, such as sit, stay, lay and leave it, we're working on come right now. We've just started puppy obedience and socialization for the next few weeks. They went to the groomer, and we've been comibing, bathing and cutting them each week at home, they handle all of this very well! So many people have asked about their breeder so don't be surprised if we flood you with requests! We've included some recent pictures.

Take care,

Kurt, Shaun, Shelby & Harley
